Welcome to the 24th Annual Rodgers Red Angus Bull
Sale at Bow Slope Shipping in Brooks, Alberta!!

This will be our **38th consecutive year** supplying Red Angus genetics to the livestock industry. Over the past 38 years fertility, calving ease, performance and quality have been the basis of our breeding philosophy.

Our goals remain the same, to produce seed stock that are **"Range Raised for Range Use"**. Our cow herd is comparable to a commercial herd, they are brought in off grass just prior to calving, fed during calving season and returned to grass following calving and allowed to develop on their own. We **DO NOT** creep feed because we feel we get a more accurate WPDA. These bulls **HAVE NOT** had their hooves trimmed, allowing you to observe their hooves in their natural condition. The bulls in this catalogue were selected from a group of 146 bull calves. We feel it is very important to cull hard allowing you to choose from, what we feel are, the best genetics possible in our herd.

These bulls were fed a growing ration aimed at 3 lbs/day to identify the bulls with superior performance traits but still not compromising the longevity of the bulls. This year during the bull test the bulls averaged 2.75 lb/day.

The performance test was completed on February 5, 2010. Dr. Rob Stables, Bow Valley Veterinary Clinic, semen tested the bulls on February 19, 2010.

Better than half of the bulls were under 1 year of age when semen tested, the results of the test shows early maturity in these bulls.

You will find the scrotal measurements in the catalogue will increase 1-3 cm by our April 13, 2010 sale day due to the age of these bulls when tested.

Explaining EPD's

Supplied by the Canadian Angus Assoc.

EXPECTED PROGENY DIFFERENCES (EPDS)

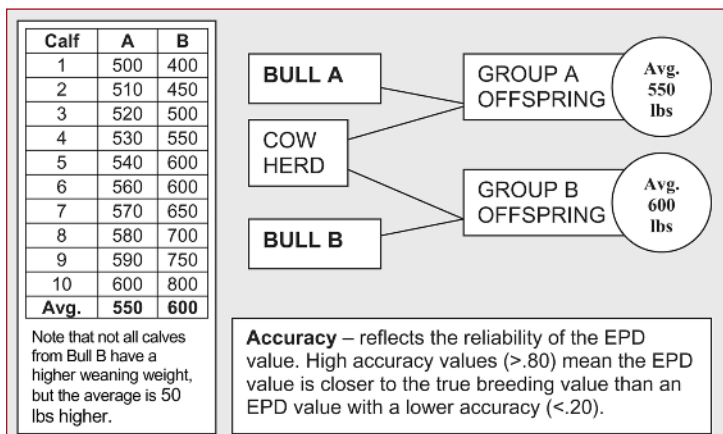

Statistics generated for individual cattle through national genetic evaluations.

EPDs:

- ✓ allow breeders to estimate a young animal's breeding value as a parent
- ✓ allow a fair comparison of breeding value by removing environmental bias such as climate, feed and special management
- ✓ best tool available to compare animals between herd, countries and year of birth
- ✓ help breeders make informed decisions regarding breeding stock selection by evaluating numerous traits such as growth-related traits (BW, WW, YW, Milk), carcass (REA, FAT, %IMF, etc.) and reproductive efficiency (CE, MCE, SC)
- ✓ estimate the group performance of one parent compared to the group performance of another parent, *assuming similar mates*

EPD's evaluate group averages and offspring's performance. They can not predict individual performance or weights.

For example, if Bull A (weaning weigh EPD of +10) and Bull B (WW of +60) were randomly mated with ten similar cows, we would expect the group average weaning weight of Bull A's offspring to be 50 lbs. lighter than that of Bull B's (60 - 10 = 50).

EPD Breed Averages for all RED ANGUS calves registered in 2009

BW	+0.7
WW	+29
YW	+52
Milk	+15
TM	+29
CE	+4.5
MCE	+3.2
SC	
REA	n/a
FAT	n/a
%IMF	n/a
STAY	+9

To evaluate seedstock, use EPDs, pedigree and visual assessment. With EPDs, the concept of “intermediate optimums” works best. Selection for one trait or for extremes generally results in unexpected consequences due to genetic correlations - for example, intense selection for high yearling weight will also increase birth weight. Successful cattle breeding requires a thoughtful and balanced approach to optimize fertility, growth and carcass merit while improving profitability and efficiency.

CONKA KING

BABY SUGAR BAR

- American Quarter Horse Sorrel Mare 15 H.H.
- Well broke. Will be 6 years old on May 7, 2010
- Used on ranch as well as a few trail rides.
- She has been used extensively in a feedlot for the last year.
- Quiet and easy to catch.
- Loads well.
- Easy to shoe.
- Would make a good team penner, western pleasure or trail horse.

Congratulations Mom & Dad!

Congratulations to Mom and Dad for being inducted into the Alberta Angus Hall of Fame as Breed Builders!!

REMEMBER, BULL BUYERS...

You have an option of one of the following:

- Free Delivery to central points within 100 miles
- OR - Haul your own for a discount of \$50/head for bulls taken home Sale Day
- OR - Bulls going back to the feedlot (Insurance Required) must be picked up by May 1, 2010

“Headed Out!” The Rodgers Red Angus cow herd on the move

THANK YOU!

Special thanks to our ringmen, auctioneer, Bow Slope Shipping and South Slope Feeders as well as to our customers, buyers, bidders, supporters, friends, and family and all who participate in this sale in any way. "No man is an island" and without your continued support, this - our 24th Annual Rodgers Red Angus Bull Sale - would not be possible. Have a safe trip home and don't be a stranger - if you are in the area, please drop in.

TERMS & CONDITIONS OF SALE

- All sales shall be final and binding. Any dispute shall be settled by auctioneer at or before time of sale.
- Payment of livestock shall be made by cash or cheque to Bow Slope Shipping Assoc.
- Transfer and registration papers will be pre-paid by the seller, and that no costs of the same be incurred by the purchaser.
- Each bull will be personally guaranteed by the seller to be a sound breeder.
- Each bull shall be inspected for testical size and found to be sound in every way.
- Buyers have an option of one of the following:
 - Free delivery to central points within 100 miles or ports of entry;
 - Haul your own and receive a discount of \$50/head on bulls taken home on Sale Day
- We keep the bulls free of charge until May 1, 2010. Bulls going back to the feedlot for wintering must be picked up by May 1/10. **Insurance is required** and will be available on site sale day.
